

# Mobility Demonstration & Training Days

Total Mobility in association with Sunrise Medical

## Canberra

9th February

## Sydney

16th February

Join us for a day workshop challenging clinicians to think about the “why” rather than the “what” of seating prescription. Featuring core seating and mobility products from the Jay seating and Quickie wheelchair range, this presentation is designed to help clinicians develop a targeted and strategic approach to seating and mobility prescriptions.

This workshop will provide the opportunity to enhance clinical reasoning skills in determining the optimal seating and positioning strategy for clients with complex disabilities. We'll take the process from the beginning: including client assessment, postural mat evaluation and possible solutions for abnormal postures. We'll then translate this information into product prescription. We'll have the opportunity to gain practical knowledge with hands on practice; developing skills and trialling equipment.

If you've interested in taking your skills to the next level - this is the course for you.

# Canberra

**Venue:**

**Ibis Styles Canberra  
203 Goyer Street  
Narrabundah  
ACT 2604**

**Clinical Education  
Demonstrations provided  
by Amy Bjornson**

**Amy Bjornson**

**Sunrise Medical, Clinical Education  
Manager - Asia Pacific**

Trained as a Physical Therapist in the United States, Amy has over 20 years' experience working with the adult and paediatric neurologic populations, with specialties in the treatment of spinal cord injury, and evaluation and provision of assistive technology for clients with physical challenges. She was the director of the Seating and Mobility Clinic in Boston, MA USA and provided consultation services to the United Cerebral Palsy Foundation.

Based in Sydney, Amy currently develops and implements national and international training programs on using Assistive Technology to enhance inclusion, health and well-being in those with physical disabilities. She also serves a product improvement and development role for Sunrise Medical, Australia.

Amy focuses on providing sound solutions that create positive results, even in challenging environments. She consistently implements innovative ideas focused on improving the lives of people with disabilities.
